Welcome to cc:Mail Release 6.1!

This CD-ROM contains all the software and documentation that you need to install cc:Mail on your network. Included in this release are the following components:

- cc:Mail's new 24x7 post office
- Release 7 for Windows® 95 and Windows NT™
- Release 6 for OS/2
- Release 6 for Macintosh®
- Release 2 Mobile for Macintosh
- Release 6 for Windows
- Release 6 Mobile for Windows
- Release 6 for MS-DOS
- Release 3.3 Mobile for MS-DOS
- Release 6 Forms Designer (Windows only)
- Lotus Organizer® Release 2.1 (Windows only)

The most exciting new post office feature is the ability to run utilities, such as RECLAIM, on a live post office—while users are still logged in to cc:Mail.

Run the utilities 24-hours a day, 7 days a week. Your weekends are back!

cc:Mail has also drastically reduced the amount of free space needed to run RECLAIM on a live post office.

cc:Mail for Windows now includes standard form templates and automated form routing to improve workflow. The five form templates included with cc:Mail for Windows are ready for you to use today. You can also use the Forms Designer to create additional forms or modify the form templates.

Jump-start!

This CD-ROM includes everything you need to get started quickly:

- Install cc:Mail Release 7 for Windows 95 and NT from the \WINMAIL\R7WIN32 directory.
- Install cc:Mail Release 6 for OS/2 from the \OS2MAIL\INSTALL directory.
- Install cc:Mail Release 6 for Macintosh and Release 2 for Macintosh Mobile from the \MACMAIL\R6 DESKTOP directory.
- Install the administrative applications from the CCMPO directory.
- Install cc:Mail Release 6 Forms Designer for Windows from the \DESIGNER directory.
- Install cc:Mail Release 6 for Windows (16 bit) from the \WINMAIL\R6DSKTOP directory.
